

JavaScript Program to Convert Celsius to Fahrenheit

You can convert the Celsius value to Fahrenheit by using the formula:

```
fahrenheit = celsius * 1.8 + 32
```

Example: Celsius to Fahrenheit:

```
const Celsius = 98.07;  
const Fahrenheit = Celsius * 1.8 + 32;  
console.log(`${Celsius} celsius is ${Fahrenheit} Fahrenheit`);  
  
//output:98.07 celsius is 208.52599999999998 Fahrenheit
```
